

October 22, 2021

Komatik Training Solutions Inc. wish to advise that after October 27, 2021, we will no longer be delivering safety training and our business will be closing. It has been a very difficult decision to make, however, due to a number of factors including the impacts COVID-19, our business operation is not sustainable.

We have gained much knowledge and experience through our work, and we are very grateful for the opportunity to have provided safety training services for you and your team. We have built strong relationships with our clients, our students, and our industry partners. We cherish these relationships. Thank you for being part of our journey.

All of our training records will continue to be maintained and accessible for our clients. This will remain under the management of Nunacor Development Corporation. For any questions, please reach out to 709-896-5722 or via email to [info@nunacor.com](mailto:info@nunacor.com)

We wish you much success in the future.

Yours sincerely,

*Niamh Roche*
